**CIRCULAR TO THE INDUSTRY**

**WELLNESS FUND**

It was recently reported in the media that certain proposed legislative changes may affect the continued operation of the Wellness Fund. The Council is aware of these legislative proposals and is in the process of considering whether it is in a position to make submissions to the relevant policy-makers regarding the proposals. The Council will endeavour to protect the interests of all members of the industry to the extent possible. It is anticipated that the legislative proposals will only be implemented in the latter half of the year and the Council will keep all members updated accordingly.

Yours sincerely

---

Tersia Ströh  
Acting National Secretary
